

Our Coating Systems are formulated to increase the performance, cleanability and appearance of your floors. Chemical, abrasion and impact resistant systems assure durability and longevity. Specialized configurations meet the needs of static control environments.

### Stoncrest GS3®

Stoncrest GS3 is a chemical and abrasion resistant coating that is available in clear and pigmented formulas. This coating system offers long-term abrasion and corrosion resistance with excellent bond strength.

### Stonkote GS4®

General service epoxy coating, designed for use whenever a high solids, corrosion resistant and high gloss coating is required.

### Stonkote HT4®

Specifically formulated to provide outstanding protection from a wide range of chemicals while increasing abrasion resistance, impermeability and cleanability.

### Stonkote AT5®

A static control epoxy coating based on Stonkote HT4 chemistry. It is formulated to increase abrasion and chemical resistance while improving cleanability and controlling static charge generation.

### Stonseal GS6®

Stonseal GS6 combines superior chemical and abrasion resistance with excellent adhesion and weatherability. This coating offers a UV resistant top coat and has excellent abrasion resistance.

### Stonseal GS7®

Stonseal GS7 combines superior chemical and abrasion resistance with excellent resistance to ultraviolet light.

Color matching available with additional lead time, minimum order requirements and a slight premium. Color reproductions are as accurate as modern photography and quality printing methods can produce. For actual color, see flooring sample.
